

NOW, ESCAPE
INTO A GOOD
BOOK

CONGRATS
THE ROBIN WATTS
CASE

BUNGALOW is a program under the Energy Savings Certificates (CEE) scheme that aims to support overseas hotels in La Réunion, Mayotte, Guadeloupe, Martinique, and French Guiana in implementing an energy-saving approach. The goal is to better manage and reduce their energy consumption, thereby lowering associated greenhouse gas emissions.

By staying here, you are helping to support more sustainable tourism and preserve natural resources.
